

ENRIQUE DE JESÚS MORA LÓPEZ

Computer Systems Engineering Student

Ecatepec, State of Mexico, Mexico • +52 5521150783 • moralopezenrique1@gmail.com

Summary

Computer Systems Engineering student at ESCOM-IPN with a strong technical background as a Digital Systems Technician graduated from CECyT 3. Experienced in providing technical support for digital infrastructure and deeply interested in statistical analysis and web development. Proven ability to design and implement practical software solutions that facilitate operational management and data-driven decision-making.

Skills

Technical: Web Development, Systems Architecture, Hardware Assembly, Component Optimization, Cryptography.

Tools: Python, JavaScript, HTML, CSS, Assembly, C++, PHP, Java, Excel.

Experience

Instituto Electoral del Estado de México (IEEEM)

State of Mexico, Mexico

Digital Systems Technician

1-Year Tenure

- Maintained operational continuity and provided technical support for institutional digital systems and hardware infrastructure.
- Assisted in the deployment, troubleshooting, and optimization of technical equipment for internal administrative processes.

Academic Projects

Smart Management System for Cafeterias (T²T)

ESCOM - IPN

- Co-authoring protocol for an intelligent operational management and data analysis system to support cafeteria decision-making.
- Designing software architecture and logic flow for fast-paced service environments.

Residential Maintenance Digital Platform

Academic Project

- Developed a web-based platform in CDMX connecting homeowners with maintenance professionals via a dynamic job-posting system.
- Implemented bidirectional review mechanisms to ensure trust, transparency, and reputation accountability.

Education

Instituto Politécnico Nacional (IPN) – ESCOM

Mexico City, Mexico

B.S. in Computer Systems Engineering

Expected 2027

Relevant Coursework: Computer Architecture, Compilers, Artificial Intelligence, Cryptography, Digital Systems.

Instituto Politécnico Nacional (IPN) – CECyT 3

Ecatepec, Mexico

Technical Degree in Digital Systems

Graduated

Interests & Hobbies

Data & Analysis

Sports statistics, performance tracking, and probabilistic modeling.

Engineering

Automotive tuning, mechanics, and acoustic engine analysis.

Technology

Systems architecture, logic design, and hardware assembly.
